Social Media Community Guidelines

Orexplore's goal on social media is to engage with our stakeholders and create a trusted source where you can learn more about our company's technology and hear about our latest news on the various channels we share information.

We will do our best to respond to your comments and questions and aim to engage with you on our social media properties. However, please note some questions or comments we cannot address because they are related to regulatory, financial, legal, or other business matters.

While we encourage conversation and debate, we ask that you keep the discussion respectful and relevant.

Please note that we do not allow:

- Graphic, obscene, explicit, repetitive or racial comments or submissions

- Comments that are abusive, hateful or intended to defame anyone or any organisation

- Persistent misrepresentation

- Links to external sites without our permission

- Propaganda or endorsement of any commercial or non-governmental agency

- Propaganda or endorsement of any political party or program

- Comments that are not relevant to the conversation

We reserve the right to delete comments and block profiles that do not adhere to this policy.
